Rain Garden

1,545 ft² of
roof captured

\$6,182
rebated

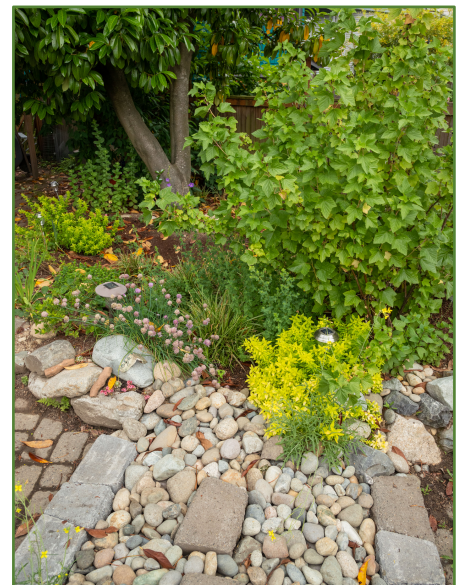

Completed in
2018

Bob ♦ Central District

“The maintenance is easy. I love the hearty plants and really enjoy the edibles my contractor put in!”

Bob went through the RainWise program in 2018 by working with RainWise contractor, HomeGrown Organics. Originally, he had a fish pond with a pump, but it was too much to maintain and kept getting clogged with leaves and invaded by raccoons. He got rid of the pond and what was left was a pit in the ground. He heard about the program from a neighbor, learned more at a workshop, then went online to find a contractor. HomeGrown installed a rain garden with edibles, such as blueberries and strawberries, for Bob to enjoy.

Thank you, Bob, for choosing RainWise!
